## CRADLE BASE WIRELESS BARCODE SCANNER

- Shockproof and drop-resistant
- Advanced software decoding algorithm
- Freely switch between handheld and desktop mode

## Model No:NC-BC801-QS2D

### SPECIFICATIONS

Light Source	LED White light
Image sensor	640*480pixels Global Shutter
Resolution(maximum)	3mil
Reading Indicators	LED light&Buzzer(adjustable tone and volume)
Input Voltage	5 VDC (+/- 10%)/500mA
Current	Working current(Standard): < 280 mA ; Standby current(Standard): < 130 mA
CPU	1.2G Dual-core
Drop resistance	Withstands repeated drops from 1.2m/ 4.0 ft onto a concrete surface.
Transmission Mode	Wireless 2.4G, optional bluetooth interface
Transmission Distance	2.4G is 100M distance in open space
Battery Capacity	2000mAh
Working Time	It can continuous working over 12 hours
Charging time	4~5HOURS
